## DRAWING LESSONS FOR OUR KIDDIES

### ONE OF THE STRANGEST ANIMALS IN THE WORLD

If your father is six feet tall, a giraffe would be three times taller yet than your father. A giraffe has to be very tall for he eats mostly just leaves of the trees. If he eats grass he has to stretch apart his long legs and bend down his neck between them and this is very hard work for him. While it looks very hard to draw a giraffe, it is very easy if you will just follow the artist's drawing.
